PAPERS PROCESSED

Date Started: N/A

Collection Title: **OBITUARY COLLECTION**

Date Span: Varied

Inclusive Subjects:

These records are a collection of information on members of the black community in the South Florida area, whose last name start with the letter D. This collection contains autobiographies, biographies, pictures, programs obituaries, certificates, awards, newspaper articles, correspondences, resumes, and documents. The collection also contains valuable information on people, places, and things that have made considerable contribution to the history, and or social status of the black community.

Brief description of processing procedure:

The records in this collection were located in the Black Archives ready reference room. After a preliminary survey was conducted, it was discovered that the records of the individuals were in alphabetical order, however, the information contain under the individual names were in no particular order, only kept in two large binder folders. To process the collection the information under each individual was placed into categories, and then transferred into acid-free file folders. After being appropriately labeled, the folders were organized in alphabetical order and placed in an acid-free Hollinger box. A content listing was made, and the files were inputted into the collections database. Collection appropriate labels were attached, and the boxes were stored in the collection room. This collection was processed at the file folder level and is now categorized multiple series.

Obituary Collection – Continued

***** Archivist Note:** These records will be stored as the Personalities D Collection, and since this is a community archives, it will be an ongoing collection. The collection already includes several prominent individuals in the community, and will continue to grow as more information is made available to the archives. Upon reviewing the collection, I made the decision to weed and remove several personalities that only contained an obituary. I will place those removed in our obituary collection until more information is made available to us. Researchers will be able to cross-reference this group of records with other material in the archives collection. Examples of other collections include: BellSouth Calendars, Obituary, Religion, Sites & Landmarks, Civil Rights (Civil Disturbance), and Neighborhoods & Communities. *tab*
